SHE WORKS FOR A LIVING.

"She works for a living," how often we hear, This calumny breathed on a name, That perhaps in the ranks of the proudest might bear A station of honor and fame.

E'en the "prentice and shop boy" will turn with a sneer, As though it could sully her fame; And their coarse greeting whispers all fall on her ear.

"She works," what need of a name. Though she "works for a living," I cannot see why

That should cast any blight on her name— At least, those who labor should not pass her by, For surely their lot is the same.

Then who shall regard the opinions of those, Whose highest ambition or aim, Is to scoff at the humble, and mar the repose, Of such as do work out a name?

O, is it not honor to fill here below The station that God has assigned, Then if labor's thy lot, to it cheerfully go— It never will sully the mind.

The Esperance, a French vessel, with a cargo valued at 100,000 francs, was entirely destroyed by fire at Cette. One of the crew had tipped a cask of brandy with a lighted candle in his hand. The brandy flew out, and came in contact with the candle, the result was the destruction of both vessel and cargo.

CURING BEER AND PORK.—To eight gallons of water, put 12 pounds of coarse salt and 1 of a pound of saltpetre.

To the above should be added a quantity of sweetening, say two quarts of molasses or a few pounds of brown sugar, which may be varied in any quantity to suit the taste. The above proportions will hold good in larger or smaller quantities.

The Public Domain.—The Report of the Commissioner of the General Land Office, just submitted to Congress, shows that during the year 1846, 2,273,734 acres of the public lands were sold, amounting to \$2,004,037; and in the year 1847, 1,533,024 acres of the present year, 1,533,024 acres have been sold, producing \$2,336,312.

There was received at Albany during the month ending the 31st December, per Albany and Schenectady Railroad 254,689 pounds of poultry as follows:—during the first two weeks 81,539 lbs. third week, 73,156 lbs. and fourth week 99,114 lbs.

Large Tow.—The N. O. Delta, of the 30th ult., says that on the previous day the tow boat Hercules, Capt. Brown, arrived up the Balize with the heaviest tow ever brought the Mississippi by any tow boat, numbering four Ships, viz: Viceroy, 1120 tons; Alice Wilson, 1020 tons; John G. Coster, 744 tons; Charlotte, 640 tons. Total—3431 tons burthen.

"Miss Semphire, do you write prose or poetry for the Magazine?"

"Nary one—I writes small hand."

Let young folks begin humble if they would live well in the middle of life and old age. Better to start at the foot of the ladder and ascend, than to begin at the top and go down.

From the census of Egypt, recently taken by command of the Viceroy, it appears that the population is more than five millions.

The total number of slaves in Tennessee, is 94,253; valued at over \$39,000,000.

FRIDAY, JANUARY 11, 1848.

BY O. F. JACKSON, 87-THAMES ST

Town Meeting.—A town-meeting is to be held to-morrow morning, at 10 o'clock, at the Town Hall, for the purpose of considering the propriety of petitioning the Legislature for an act of incorporation as a City. The Charter adopted by the meeting last Tuesday evening, will be discussed, and it is expected the approval of the freemen, as we have no doubt it will; immediate application will be made to the General Assembly, which is now in session, and the petition, agreeably to law, must be over and under the May session when it will be acted on.

This matter has been thoroughly discussed in the community, for more than a year past, and we know that there has been a very material change in that time, in public opinion, on the subject. Some people were strongly opposed to it, from principle and an honest conviction that it was not practicable;—but it was simply because they did not understand the nature of the change, and the benefits to be derived therefrom. Others were opposed to the Charter, on account of some of its features, which they considered objectionable. All these things have been investigated, and a new Charter prepared, which we have strong reasons to believe will meet the approval of a large majority of our citizens.

We earnestly impress upon all, the importance of considering the subject with candor and deliberation, and reflecting upon it, in all its bearings, with a reasonable and unprejudiced mind. It is conceded by almost every one that a reform in our government *must be had*; here, then, is the first grand point yielded, upon which to predicate our reasoning. Then the next question is, how shall that change be effected, and what is the most practicable course to be pursued? In order to argue correctly in this matter, we must necessarily understand something of the nature of government, and the principle of its action. In a community as large as this, it must be administered, *everywhere*, reflecting mind, that our can be more safely, advantageously, and economically managed by a smaller number of men, annually selected from all parts of the town, who are restricted and controlled by legal safeguards, than by the mass of a large, unconfined town-meeting, where there is no responsibility, and where every man is striving for his own interest.

A plan for a reform in the town government, such as a once deliberately matured, after more than four months' consideration, and rejected by a large majority of the freemen. Do not let us, therefore, settle the question as to the impracticability of a reformation of a town government? Have not the people emphatically said, we believe that an effective town government *cannot* be established? We think it does, beyond the shadow of a doubt. Then, again, there are very many persons, who voted against the Charter last year, who said, make an effort to reform the present government, and try it another year, and if the result is not satisfactory, we will then vote for a City. Now, without casting any reflections upon our citizens in official stations, we ask any man to point out a single isolated benefit that has been derived from any change during the past year. The fact is, we are precisely where we then were, and must remain, under this form of government. Thus meeting our opponents upon their own ground, and basing our argument upon their granted premises, we ask if we have not shown a City government is absolutely necessary, and the only practicable means of reform? Then as to the Charter under consideration, the main features of which we published Wednesday. It is efficient, guarded, and all that is requisite for our wants; it provides a remedy for all present evils, and will give us a *cheap* government, as we now are. What more can be asked, if the people are dissatisfied with its operation, after giving it a fair trial, a majority can at any time abolish it, and return to a town government. We desire to have this point fully understood, for some evil-disposed persons, who know better, are attempting to poison the minds of those who are not informed, that it will require a *two third* vote to repeal it if it is not satisfactory;

this assertion is not true, and it is unworthy the heart of an honorable man. Again we say, a bare majority of one may at any time repeal the Charter, if the people do not prefer it to our present form.

We hope to see a full town meeting, to-morrow, when the freemen will be called upon to exercise their elective franchise on the question of petitioning the Legislature.

TELEGRAPH TO FALL RIVER.—We have taken some pains recently to ascertain the cost of constructing a Telegraph from Newport to Fall River; and we are informed by a gentleman who is perfectly conversant with such matters, that the whole cost of the same, delivered into the hands of the Company, in full working order, would not exceed two thousand dollars. Now if the price of stock was fixed at twenty-five dollars per share, it would bring it within the means of almost every one at all interested in the prosperity of our town. Cannot eighty shares be taken up by our citizens? Is there not energy and enterprise enough within ourselves, to make this valuable improvement in our affairs? We think there is, and it is our intention forthwith to embark in the matter, and ascertain what can be done; and we write this article for the purpose of interesting the attention of the public, and seeking the cooperation of the citizens. We are satisfied that the requisite amount of stock may be subscribed in three days, and the work commenced immediately.

As to the benefits to be derived from this Telegraph, it is almost useless for us to say one word, as they are apparent to every one, who has given the subject a thought.

Wherever the Telegraph has been established, it has invariably been found to be good stock, paying even a larger interest than any other kind of investment. Then, whenever there is anything of the least importance from any part of the country, no matter if it transpired in New Orleans, at a late hour last evening, our readers will receive at the breakfast table this morning, thus annihilating time and space, and uniting remote parts of the country, by the magic of lightning. It would also be of infinite importance to our community in the summer season, when the town is crowded with visitors from all the cities of the Union, business men and others, who would be constantly availing themselves of a Telegraph, for their own private benefit, and this, in connection with the various uses that would be made of it, would ensure a handsome annual profit to the stockholders.

Citizens of Newport, are you willing to join in this enterprise, which will cost but a trifle, and secure you permanent and incomparable benefit?

Some fool, judging from his orthography, has sent us an anonymous letter through the postoffice, in which is contained sundry threats, such as bruising our face, &c., unless we conform to a course marked out by him for us to pursue. Thou insignificant piece of humanity!—dost thou think that we fear thy threats, or would take advice from one who has not sufficient sense to go into the house when it rains? We are in our office, usually, till 8 o'clock in the evening, and if venience is thine, come and put thy threats into execution; else mind thine own business, and spend the time that occupieth thy attention in writing such epistles, in learning the English language. Dost thou hear? Then profit by our advice.

At Baltimore the steamers *Jewess* and *Walcott* were burned up on Tuesday night, and two schooners besides. The *Jewess* was not insured, but the *Walcott* was insured for \$1000.

How to Save in Little Matters.—Procure a book and keep an exact account of all your expenditures. At the expiration of three months, review the account, and see how much you have expended in four-penny and nine-penny items, which you could have done without as well as not. Then see to it that each ensuing quarter shall be minus just those things. In many cases the aggregate would be found more considerable than you would be aware of, unless you kept such an account.

There are in Ireland, 2735 Roman Catholic priests, 2505 churches, 25 colleges, 20 convents, 10 monasteries, and 42 monasteries.

An act in amendment of an act entitled an act in relation to the General Treasurer.—Referred to Committee on Judiciary.

On motion of Mr. Ballou the petitions of Ezekiel Fowler *et al.*, of Eli Pond *et al.*, and of Dexter Ballou *et al.*, were ordered to be taken from the files and referred to Committee on Corporations.

An act in addition to an act entitled an act for the equal distribution of insolvent estates. Read a second time and passed.

Resolution calling upon the banks for information as to the annual average of their dividends and profits, was called up.

Quite a lengthy debate was had on this resolution. It was supported by Messrs. Cranston, Sherman, and Hidden, and opposed by Messrs. Manchester, Whipple, and Barber.

Mr. Huggins moved that this resolution be referred to the Finance Committee for revision.

The question being on the passage of the resolution, the House was called and it resulted as follows: yeas 21; noes 32.

An act in amendment of an act entitled an act in relation to jurors. Read and referred to Committee on Finance.

An act in amendment of an act concerning crimes and punishments. Read and passed to a second reading and laid on the table.

Resolution assigning a day for the trial of petitions, and also fixing the time for the adjournment of the present session. Laid on the table.

Tuesday, the 18th instant, was assigned as the day for the trial of the docket of private petitions.

SENATE.—The Senate met and there being no business on the table adjourned.

HOUSE.—Petition of Henry J. Hudson, guardian, to mortgage real estate. Referred to the committee on judiciary.

Petition of Emily S. Stone, for power to make a will. Referred to the committee on judiciary.

An act in amendment of an act in relation to Supreme Court. Referred to the committee on judiciary.

Petition of New England Commercial Bank of Newport, for amendment of charter. Granted and act passed.

Petition of stockholders of Roger Williams Insurance Company for incorporation. Referred to the committee on corporations.

An act in amendment of an act establishing Courts of Common Pleas. Read and referred to committee on judiciary.

Sundry accounts and petitions were received.

Memorial of Third Brigade. Stricken from the docket.

Memorial of Kent Brigade. Stricken from the docket.

Act granting School District No. 4 of Gloucester, a portion of Public School money. Stricken from the docket.

Petition of Rhode Island Guards. Stricken from the docket.

Petition of Artillery Company for guns. Stricken from the docket.

Adjourned.

COSTLY UNIFORM.—Gen. Valencia, who was so badly whipped by Gen. Smith, at Centenas, possesses one requisite, and the chief requisite of a great Mexican General, he has a most splendid and costly uniform. It is said that when in full dress, he bore upon his distinguished person, at least \$20,000 worth of gold, diamonds, and precious metals.

Old Maids are the pure gold of woman kind," says a modern saw; to which an old bachelor rejoins, "and the young maids are the real diamonds."

Young Women who are accustomed to read newspapers are always observed to possess winning ways, most amiable dispositions, invariably make first rate wives, and always great good husbands.

Curse.—The palace of the Duke of No. 10, the enormous sum of £250,000—the enormous price alone cost \$72,000.

How many poor wretches have starved in their frightful destruction that one man may live in luxury and magnificence?

Thirtieth Congress—First Session.

SENATE.—Wednesday.—A petition was presented by Mr. John P. Hale, of New Hampshire, signed by 2500 Unitarian clergymen and laymen, asking for the withdrawal of our troops from Mexico, and the appointment of commissioners to treat with that country.

Mr. Sevier, from the committee on foreign relations, reported a joint resolution, providing that a board of commissioners shall be established to ascertain and determine the amount of claims of our citizens against Mexico—with amendment in which that the United States shall in no case become liable for such claims.

Mr. Yulee, from the committee on naval affairs, reported a bill for the relief of the forward officers of the exploring expedition.

Mr. Dickinson, of New York, took up his resolution, previously ordered, and spoke at length on the subject, advocating the annexation of all territory in our possession, leaving the slavery question to be determined by the people inhabiting such territory.

Messrs. Yulee and Hale, submitted substitutes for the ten regiment bill, which they intend to bring forward at the proper time.

Mr. Clayton resumed his speech upon that bill.

HOUSE.—Wednesday.—Mr. Robinson, of Indiana, offered a resolution to stop debate upon the President's Message at two o'clock this day. On motion of Mr. Stevens this resolution was laid upon the table.

In committee the discussion of the President's Message was resumed, and Mr. Lincoln, of Illinois, made a speech combatting the idea that the war was commenced by the shedding of American blood upon American soil.

The hull of the U. S. Revenue Schooner *Crawford* was sold on the 5th inst., as it lies on Gardner's Island, to Mr. Pardon T. Brown, of Mystic, for the sum of \$91.—*New London News.*

The question why printers do not succeed so well in business as brewers was thus answered. Because printers work for the head, and brewers for the stomach, and where twenty men have a stomach, but one has a head.

It will be seen, by an advertisement in to-day's paper, that John D. Northam, Esq., has been appointed, by the Board of Underwriters in New York, their agent to attend to vessels in distress on our coast.

George Crandall serves up as good Oysters, and in good style, as any we ever partook of. It will be seen, by an advertisement in another column, that he has received a large lot of York River Oysters, and those in want, either by the bushel or "steak," had better give him a call.

UNITED STATES HOTEL.
On 1st, 2nd and 3rd Streets, New York.
BY H. JOHNSON.

THIS is one of the largest and best kept Hotels in the city of New York. Board \$1.50 per day. Its location is particularly convenient for business men, and Mr. Johnson, the popular and gentlemanly landlord, makes the comfort of his guests a constant study.

CAUTION.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as *Brown's Sarsaparilla* and *Tomato Bitters*. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of *Brown's Extract of Sarsaparilla* and *Tomato Bitters*, or *Sarsaparilla* and *Tomato Bitters*, is already known and appreciated by physicians and the public—particularly by those who have used them for impurities of the blood, bad humors, Scrofulous diseases, Bilious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alterative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medical qualities of this most valuable root.

MEDICAL USES OF THE WILD CHERRY.—Ever since the settlement of America, Wild Cherry has been known to possess very important medicinal virtue. Every body knew this fact, but nobody knew how to extract its essential properties. Every mother gives Wild Cherry to her children for worms, freckles, and for almost every disease; and adults throughout our country rely in the habit of taking a compound or syrup of wild cherry bark, and other ingredients, to be used in spring as an antidote to complaints incident to that change of season. It is found by experiment that the wild cherry possesses even far more important qualities than was ascribed to it. For the first stages of Consumption, Asthma, no matter how long standing, Coughs, Liver Complaint, etc., it is proved to be the best medicine known to man.—*Dr. Wistar's Balsam of Wild Cherry* is a chemical

extract, combined with a similar extract from Tar, which enhances its value. Its success in curing Pulmonary disease, in almost every stage, after our best physicians could do no more, has astonished the faculty, and led them to confess that Wistar's Balsam of Wild Cherry possesses a principle heretofore unknown among medical men.

None genuine, unless signed J. BUTTS, on the wrapper.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different action of "aliments," "poisons," and "federal agents," and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth. The great object, therefore, is to ascertain what remedy will most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton St. N. Y.

Sold also by Dr. R. R. Hazard and R. J. Taylor, Newport, by J. Russell, Fall River, by C. Dyer, For sale by R. J. TAYLOR.

[Extract of a letter from Dr. Williams of Vt.]
Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrofulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to have it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A. Boyden, Esq. of Cambridge, cured of the dyspepsia of a year standing, after trying a hundred remedies without the least effect.

For sale by R. J. TAYLOR.

A Common Cold and Cough.—It should be remembered that a cough is an evidence that some impurity is lodged in the lungs, which, if not speedily removed, will so irritate those delicate organs as sooner or later to bring on inflammation of the lungs—a form of disease which we all know is the high road to consumption.

Wright's Indian Vegetable Pills are a most delightful medicine for carrying off a cold, because they expel from the system all morbid and corrupt humors (the cause of every kind of disease) in an easy and natural manner. Four or five of Wright's Indian Vegetable Pills taken every night on going to bed, will in a short time remove the most obstinate cold—at the same time the digestive organs will be restored to a healthy tone, and the blood completely purified.

BEWARE OF SUGAR COLORED COUNTERFEITS.—Remember the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. G. C. HAZARD, No. 89 Thames-st., Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Seabury & Almy, Tiverton Bridge; Arnold Smith, Tiverton Four Corners; H. E. WINTER evenings and YOUNG'S Variety
Store form pleasant associations for the in-
habitants of Newport. There is nothing scarce-
ly that can contribute to the comfort of all, that
cannot be obtained at this store, and all as low
and a great many much less than can be bought
elsewhere in Newport. For example, we will at-
tach the following prices, and every article is war-
ranted.

Western Apples from \$1.75 to \$2.12 per bbl;
shell-barks \$3 per bushel; peanuts \$1.02 per
bushel; chestnuts from four to five dollars per
bushel; almonds one shilling per pound; new
raisins, figs, dates and currants 12 cts per pound;
we sell these last named articles at wholesale prices.
Prunes 20 cts per pound; grapes 25 cts;
new citron 28 cts; preserved ginger \$1.12 per jar,
or 30 cts per pound, in small quantities; candies
and all kinds of confectionary cheaper than they
have ever been sold at any other store in town, at
wholesale and retail, always fresh and of the finest
quality; for the truth of this we wish every
one to come and judge for themselves.

This is no idle advertisement merely to draw
people to my store to disappoint them, but a plain
statement of facts, which all may ascertain by call-
ing. Also several kinds of Cough Candy, war-
ranted equal to any now in use, for the cure of all
kinds of complaints arising from colds.

Fancy articles and toys of every description, in
any quantity, such as silk purses, pocket books, ri-
zar cases, pocket knives, scissors, razors, razor
strops, hair, clothes, tooth, and shoe brushes, fancy
work boxes, walking canes, dominoes, dice, con-
versation cards, French and Highland do, combs
of all kinds, cologne, hair oil and pomade, cigars,
tobacco, and everything that is ever kept in a con-
fectionary and variety store.

Miracle.
ON the 4th of August, in the year 1843, a sin-
gular scene occurred in the Royal Scientific In-
stitution of France. The aged, white headed
President, his head bare, his arms outstretched, his
face radiant with smiles, (for science was triumph-
ant) and his voice with gratulatory tone, deliv-
ered the following report:
"We are astounded at this singular preparation.
Where indeed will science stop! Here we have
a preparation made in the form of a beautiful piece
of soap, which we know by actual practice, to
cure every cutaneous eruption, every disfigure-
ment of, and even discolored skin! Where will
its magic and singular power cease! The Negro,
the Creole, the Yellow Race of the East, and the
Red Man of the far West, are alike under the in-
fluence of its extraordinary powers of clearing yel-
low or discolored skin, and making it white and
beautiful, and of changing the color of dark, or
black, or brown skin." (Here several persons
were brought forward by the President, who had
used it, in proof of his assertion.)

There are probably few persons of intelligence,
who, after reading the above, will doubt the qual-
ities of JONES' ITALIAN CHEMICAL SOAP, in
curing Pimples, Blisters, Salt Rheum, Scoury,
Erysipelas, Sore Heads, Old Sores, Beard and
Barber's Itch, Chapped and Tender Flesh, Freck-
les; Tan, Sunburn, and changing dark sunburn or
yellow skin to a pure, clear white, as smooth and
soft as an infant's, and in fact every kind of erup-
tion and disfigurement. Read these certificates:
[From the N. O. Sentinel, Oct., 1841.]

One of our subscribers, Mr. H. Leonard, in-
forms us that he has been cured of old, scaly Salt
Rheum, of eighteen years standing, on his head,
fingers and hands, by a cake of an article much
advertised lately—we speak of Jones' Italian
Chemical Soap. He also informs us that he has
tried its effects on his female slave Rose, much
marked with sun spots, and he found in two
weeks her skin much clearer and whiter.

James Elham, a painter in Jersey City, was
cured of carbuncles and pimples, which he was
afflicted with for many years, by part of a cake of
Jones' Italian Chemical Soap.
Persons in purchasing this must always ask for
Jones' Italian Chemical Soap; and perhaps, as
many who have been cheated with counterfeits,
will be too much discouraged to try the genuine,
we say to such, try this once—you will not regret
it, and you will be able to name the name of J. JONES
is on the wrapper. For sale in Newport by
June 10-July R. J. TAYLOR.

The Teas mentioned in the above catalogue are
put up in Quarter, Half and Pound Packages,
made perfectly air tight, and warranted to be
well worth the price marked on the label; if they
are not found to be so, they can be returned at any
time and the money will be refunded.

The Canton and Pekin Tea Company, although
not the "exclusive vendors" of the quality cele-
brated "Howqua Mixture," can still accommodate
their customers with it, at a price and of a quality
which will bear comparison with any other.

The citizens of Newport and vicinity are re-
spectfully invited to call at the above store, 150
Thames-st., and test the qualities of these Teas, as
the company are confident, after purchasers make
one trial, that an extensive custom will be secured.

A very Extensive Supply.
OFFERING this stock of goods to the inhabi-

the satisfaction of making a good bargain is incom-
plete—it is not realized when the purchaser does
not know that he is receiving for his money the
very best return. To give, in this case, full assur-
ance, I will say, that whilst the above goods are
too valuable to allow of being purchased at lower
prices than other goods in market, I will notwith-
standing, sell them at such prices as cannot fail to
secure a continuance of that custom which I al-
ready have so largely and so liberally received.

A Word to the Public.
AFTER the 8th day of January, I shall discon-
tinue to receive New York papers daily, and
shall receive them only on such days as the boat
arrives. On the alternate days an extra number
of Boston Daily's will be procured. I am com-
pelled to adopt this course for the following rea-
sons: 1st, there is not patronage enough in New-
port during the winter months to pay the expen-
ses of procuring from New York a small order
daily. 2d, the mails are so irregular during the
stormy season, that two mails frequently arrive
together; and although at such times, I sell at a
discount, many will not buy at all, thus throwing
the whole loss on my shoulders, when at the same
time, if they subscribe and receive them through
the Post Office, they must take them as they
come, and pay two dollars and seventy cents per
year more than it costs to receive them of me. 3d,
I do not about Fifty Dollars last winter in my efforts
to accommodate the public, but in justice to myself,
I cannot do it again with my eyes open. Respec-
tfully the public's obedient servant,
WM. GOFF,
News Depot, 99 Thames street.

N. B. Should a sufficient number of names

**Phalon's Chemical Hair Invo-
igator.**
A REMEDY for all diseases of the Hair, and
is restorative in all cases where baldness is not
beyond the reach of art.
Naught with beauty can compare,
With soft, glossy locks of hair;
If not endowed with such by nature,
Use Phalon's Hair Invigorator.

The subscriber having devoted a considerable
portion of his time, art twenty years to the study
of the skin and the human hair, also the best
means of treating and curing the same, and a
wing, in the course of his experiments made various
changes and improvements in the different arti-
cles approved as the best for such purposes, has at
length, after laborious research and deep inves-
tigation, succeeded in bringing to perfection a com-
position, the virtues of which he challenges the
world to excel.

The Chemical Hair Invigorator is composed of
a number of vegetable ingredients of opposite quali-
ties, and approved by the highest medical stand-
ard, the secret of blending and combining, which
is known only to the subscriber, who has spared
neither pains nor expense in bringing it before
the public.

The Invigorator is an article in which a clean-
ing and purifying wash is beautifully blended with
a most delicate, silky and glossy moisture of the
hair never before attained, yet free from or-
dinary grease or essential oils. It cleanses the
pores of the skin, causes a healthy action of the
blood vessels, nerves, &c., which free the hair,
thereby preventing baldness and gray hair, entire-
ly frees the skin from scurf, dandruff and other
cutaneous diseases, disposes the hair to curl, and
keeps it so—will positively change the hardest hair
into the most soft and healthy and glossy state, al-
so imparts to it a darker color, and a fine use of it
will keep both the skin and hair in a healthy and
luxuriant state until the last period of life.

Ladies will find the Invigorator a great addition
to the toilet, both on account of its delicate and
agreeable perfume, and the great facilities it
affords in dressing the hair, which when master-
ed with the Invigorator can be dressed in any re-
quired form, so as to preserve its place without
plain or in curls. When used on children's heads it
lays the foundation of good hair of life.

The great and only Successful Remedy for the cure of Consumption.

IS Dr. E. W. Vandersmith's INDIAN COUGH BALM and LUNG BALM.

READ—AND

Disease of the Lungs and Throat cured.

This is to certify that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, etc., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton, my throat was very much ulcerated. I had lancet applied to my throat twice a week, but received no benefit; I have used one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Wilcox, whose lungs had been affected for two years past, was cured by Dr. Vandersmith's Medicine. He insisted upon my trying Dr. V. and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow frothy matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every consumptive to try Dr. V.'s medicine, I am confident it will cure you. Your sincere friend, EDWARD C. THOMPSON.

Inflammation of the Lungs.

New York, June 19, 1847.

Dr. Vandersmith:—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold, which settled on my lungs. I was unable to attend to my business for the day. I would have dreadful coughing fits, that I thought it was impossible for me to get up unless I could get relief. The excessive coughing, which reduced my whole body to a skeleton, I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vandersmith's Indian Cough Balm and Lung Balm. I consented; when I used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vandersmith's invaluable medicine, that I would be mouldering in the silent grave. Therefore I believe that I am doing nothing but what is justice, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend, JAMES B. HENDERSON.

Consumption.

Staten Island, June 10, 1847.

Dear Sir—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and cold and raising of white and yellow mucus. Some days I missed a half-pint of mucus, streaked with blood. I have been under the treatment of a variety of physicians, I was recommended by Dr. Mitchell of Philadelphia, to use a Breathing tub, I purchased one, I only made use of it one week it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vandersmith's Medicine recommended very strongly by a patient whom he had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions and it cured me perfectly sound.

Yours, &c. ROBERT WILLSEY.

and fully equal to any recommendation of them,

if you do not find that one of these pills does more

good than from four to six of any other kind, every

agent stands ready to receive the empty boxes

These Pills are recommended as being without

an equal in all bilious attacks, affections of the

taking cold, or obstructed perspiration. They

carry off the bile, cleanse the stomach and bowels,

and re-open the closed pores of the body, thereby

lifting out the insensible perspiration through its

accustomed channels, and relieving at once the internal

organs. Also in old chronic affections, as

The American Improved Hygeian Vegetable

Medicine.

SAFE, CHEAP AND EFFECTIVE.

This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple and to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years. It is a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Bogle's Hyperion Fluid; Or Vegetable Hair

Composition.

THE subscriber has been induced to bring this

article before the public, at the request of his numerous

customers, among whom are physicians and

citizens of the first respectability, who have

adopted its use in their families, and wish others to

participate in its advantages.

The Hyperion is composed of vegetable ingredi-

ents, the secret of compounding and blending which

is known solely to the subscriber. It is an article

in which a cleansing and purifying wash is

beautifully blended with a most delicate, silky and

glossy moisture never before attained, yet free of

animal grease or essential oils. It cleanses the pores

of the skin, causes a healthy action in the blood

vessels, nerves, &c., which feed the hair, thereby

preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff,

and other cutaneous diseases, disposes the hair to

curl, and changes the harshest hair into the softest

and glossy, and healthy state, also imparts to it a

darker color, and the free use of it, both on the

skin and hair, in a most healthy and luxurious

state, until the latest period of life.

Ladies will find the Hyperion a great addition to

the toilet, both on account of its delicate and agree-

able perfume, and the great facilities it affords in

dressing the hair, which, when used in the usual

mode, can be dressed in any required form, so as to

preserve its place, whether plain or in curls.

When used on children's heads, it lays the founda-

tion of a good head of hair.
